

Carestream Earns High Marks* in 2016 KLAS Report.

KLAS has recognized Carestream Health with high ratings* in the recently released KLAS Enterprise Imaging 2016 Report for two of its Enterprise Imaging solutions: the Vue Archive vendor-neutral archive (VNA) and Vue Motion universal viewer.

Straight from the Report

Vue Motion was highly rated* in the universal viewer category, "...consistently delivering the image-management functionality providers need."

Vue Archive, as the VNA, has "the strongest and most consistent out-of-the-box image-management functionality."

KLAS is a respected research firm on a global mission to improve healthcare delivery by enabling providers to be heard and counted. Based on interviews with thousands of healthcare professionals and clinicians, KLAS evaluates, ranks and reports on healthcare vendor performance. The research directly represents the provider voice and acts as a catalyst for improving vendor performance.

*Limited data
Note: Other universal viewer vendors validated in this research but not measured due to size of market share: Karos Health, Lexmark, Mach7 Technologies, McKesson, TeraRecon, Visage Imaging and Vital.

*Limited data
Note: Other VNA vendors validated in this research but not measured due to size of market share: CoActiv, McKesson and Sectra.

"The viewer has always worked very quickly...it integrates well with the Carestream VNA and various service lines." - Radiology Systems Analyst

"The VNA is amazing! ...it's doing exactly what I planned for it to do." - Hospital CIO

The Power of Together.

Both Vue Motion and Vue Vendor Neutral Archive are modules of Carestream's Clinical Collaboration Platform – an enterprise-imaging solution that allows all those who provide, manage, receive and reimburse care the ability to access the clinical images and data they need – to enable seamless communication and collaboration across multiple sites and specialties.

The power of together.

*KLAS Confidence is a measure of sample size. Carestream was included in KLAS's "Below Confidence category" because fewer than 15 interviews were conducted.
